LOGISTICS POLICY

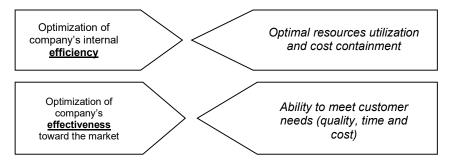

A. Benevenuta & C. SpA is committed to actuating a Logistics Policy aimed at Customer Satisfaction and business development.

The fundamental goal is to develop the logistics process in terms of:

- planning
- organization
- control

of the activities aimed at making the right thing available at the right time and in the desired place

Two optimization targets are assigned to Logistics:

Logistics represents an important source of competitive advantage and is meant as an "integrated process" in the framework of the continuous improvement. It is made of a set of management activities that, in a coordinated manner, help the company to achieve the target of competing in the market while meeting the needs of its customers.

GUIDELINES

- **Efficiency** optimization:
 - Reduction of purchasing costs (economy of scale)
 - Support to manufacturing
 - Safety stock management
 - Better use/saturation of equipment (kanban method / picking area)
 - Reduction of transportation and distributions cost
 - Reduction of materials' stocks and related financial cost
- **Effectiveness** optimization
 - Respect of agreed delivery times (reliability)
 - Lead times reduction (timeliness)
 - Product and service personalization (flexibility)
 - Improvement of after-sales service (warranty provisions, spare parts, etc.)
